

Program: FP7 Cooperation

## Template for summaries of research

Validated during the first stakeholders' meeting, on November 27<sup>th</sup> and 28<sup>th</sup> 2012

Project acronym:	EUROSHELL
Project title:	Bridging the gap between science and producers to support the European marine mollusc production sector
Project coordinator:	Comité National de la Conchyliculture (CNC)
Grant agreement number:	312025 – FP7 KBBE 2012.1.2-11
Funding scheme:	Coordination Support Action
Deliverable number 3.1:	A template for summaries of research with a focus on their outputs

# EUROSHELL : A template for summaries of research with a focus on their outputs.

---

This template is based upon that used by the AqualInnova<sup>1</sup> project, as described in the EUROSHELL Description of Work and is the model that will be used to present European shellfish knowledge to its primary end users from industry. The template will be used to create an online database, where EUROSHELL partners can upload information on projects and from other knowledge sources.

## Part 1. Headline information

This section provides the main information on the project or report.

Section/sub-division	Explanation
<b>Knowledge source</b>	Selected from a list
<b>Headline title</b>	A 'news' headline type heading to identify the project
<b>Full title</b>	The full (often scientific and long) title
<b>Acronym</b>	If applicable and for reference
<b>Project logo</b>	Where applicable
<b>Key words</b>	Selected from a list

List of knowledge sources (Only the most relevant to be selected):

EU project
National RTD project
Other RTD project
Technical report
'Hands on' knowledge
Summary report or compilation
Patent record

List of key words (several may be selected), possibly grouped under producer-relevant areas:

Environment	Product	Market
Carrying capacity	Species biology	Human health
Water quality & waste management	Breeding and polyploidy	Market overviews
Biofouling and anti-fouling	Husbandry and best practice	Market legislation
Toxic algal blooms	Larval production and nutrition	Transportation & packaging
Predation	Equipment and technology	Learning, training & education
Environmental policy, planning, site selection and ICZM	Product quality	Processing
	Health & diseases	Socio-economics
	Integrated species production	Technology transfer

## Part 2. Challenges and outputs

This is the core information, especially on OUTPUTS. Ideally the 3-4 KEY outputs will be selected and summarised.

---

<sup>1</sup> <http://eatip.eu/default.asp?SHORTCUT=100>

Section/sub-division	Explanation
<b>Challenge</b>	A short paragraph that puts the research into context
<b>Core objective</b>	A short paragraph stating the principal or core objective
<b>Sub-objectives/Key points</b>	More objectives (as a bullet point list)
<b>Output 1</b>	
<b>Output category</b>	Selected from list
<b>Output type</b>	Selected from list
<b>Short description of output</b>	2 lines to describe the output
<b>Primary end user</b>	Select from list - producers, scientific community, policy makers, consumers...
<b>Secondary end users</b>	Select from list (as above) - other stakeholders for which this may be of use/relevance
<b>Output availability</b>	Public, IPR protected, patent status, availability on web...
<b>Output 2</b>	
<b>Output category</b>	Selected from list
<b>Output type</b>	Selected from list
<b>Short description of output</b>	2 lines to describe the output
<b>Primary end user</b>	Select from list - producers, scientific community, policy makers, consumers...
<b>Secondary end users</b>	Select from list (as above) - other stakeholders for which this may be of use/relevance
<b>Output availability</b>	Public, IPR protected, patent status, availability on web...
<b>Output 3</b>	
<b>Output category</b>	Selected from list
<b>Output type</b>	Selected from list
<b>Short description of output</b>	2 lines to describe the output
<b>Primary end user</b>	Select from list - producers, scientific community, policy makers, consumers...
<b>Secondary end users</b>	Select from list (as above) - other stakeholders for which this may be of use/relevance
<b>Output availability</b>	Public, IPR protected, patent status, availability on web...
<b>Output 4</b>	
<b>Output category</b>	Selected from list
<b>Output type</b>	Selected from list
<b>Short description of output</b>	2 lines to describe the output
<b>Primary end user</b>	Select from list - producers, scientific community, policy makers, consumers...
<b>Secondary end users</b>	Select from list (as above) - other stakeholders for which this may be of use/relevance
<b>Output availability</b>	Public, IPR protected, patent status, availability on web...

Output categories and types (select one category, then one type).

Category	Type
<b>Technology and demonstration</b>	Prototype
	Product
	Case studies/Demonstration
	Technical manuals
	Best Practice
	Patent?
<b>Empirical research knowledge</b>	Scientific publication

	Software modelling tools
	RTD methods and protocols
<b>Communication and user communities</b>	Book, review, event summary
	Database, directory, network
	Multimedia, blogs, online communities
	Web portals
<b>Support to Policy</b>	Report
	Guidelines and standards
	Monitoring (environment, health...)
<b>Learning, training and education</b>	Training activities/Learning modules

### Part 3. Project socio-economic data

Giving information on the coordinator, partners and financing of the knowledge.

Section/sub-division	Explanation
<b>Contract number</b>	For reference
<b>Project duration and end date</b>	E.g. 3 years to 2011
<b>Coordinator</b>	Coordinator institute, name and contact details
<b>Partners</b>	Total number (a drop down list 1-5; 6-10; 11-15; more than 15), number of RTD partners; number of SME partners; number of 'other' partners (e.g. for dissemination, communication) – as per drop down list for total number of partners.
<b>Countries</b>	Number (and name) of countries involved – number as drop down list (from 1-12); countries from drop down list of EUROSHELL partner countries and others?
<b>Project website</b>	www....
<b>Financing</b>	Name of principal financing body; Total spend (or budget) – a drop down list <100k€; 101-500k€; 501-1000k€; more than 1001k€; % amount of that total provided by financing body.
<b>Other information</b>	Links to other sites or key references

### Part 4. Other useful information

A final section, where other information can be provided, especially photos or figures uploaded (in jpeg format) to illustrate the project and especially the outputs.

Section/sub-division	Explanation
<b>Other information</b>	Links to other sites or key references
<b>Upload photo/figure 1</b>	
<b>Upload photo/figure 2</b>	
<b>Upload photo/figure 3</b>
